COMMITTEE ON FINANCE

WASHINGTON, DC 20510-6200

April 21, 2010

Via Electronic Transmission

Barbara Langer
Medicaid Director
Kansas Health Policy Authority
State of Kansas
Landon State Office Building
900 SW Jackson Street
Topeka, KS 66612

Dear Medicaid Director Langer:

In the United States, the federal and state governments spend roughly \$317 billion every year on the Medicaid program. As Ranking Member of the Senate Committee on Finance, I have an obligation to ensure that taxpayer dollars are appropriately spent on federal health care programs. Like the Medicare program, Medicaid suffers from systemic weaknesses that lead to fraud, waste, and abuse across the program, resulting in higher costs and less health care to those who are in need. The overutilization of prescription drugs, whether through drug abuse or outright fraud, plays a significant role in the rising cost of our healthcare system. The purpose of this letter is to request information regarding certain outliers in Kansas' Medicaid program and what steps Kansas takes to monitor rates of utilization.

In recent inquiries, I have asked the U.S. Department of Health and Human Services about physicians prescribing mental health drugs at astonishingly high rates. In addition to these concerns, a recent CNN report detailed the increasing abuse of OxyContin, Roxicodone, and Xanax. Specifically, the report described the role some pain management clinics and physicians play in the black market for these drugs. I write today to better ascertain how high rates of both mental health and pain medication utilization are affecting the Medicaid program, as well as how Kansas' rates compare to the national rates.

To that end, please provide charts that list of the top ten Medicaid prescribers of the following drugs for the years 2008 and 2009. For each prescriber, please provide his/her prescriber identifier, and the number of prescriptions written per drug per year, and the total amount billed to Medicaid per drug, separated for each year.

- Abilify;
- Geodon;
- Seroquel;
- Zyprexa;

VIA ELECTRONIC TRANSMISSION

Barbara E. Langner, PhD
Medicaid Director
Kansas Health Policy Authority
Rm. 900-N, Landon Building
900 SW Jackson Street
Topeka, KS 66612-1220

Dear Director Langner:

Your state provided my staff with data regarding the top ten prescribers of several pain management and mental health drugs in your state. These types of drugs have addictive properties, and the potential for fraud and abuse by prescribers and patients is extremely high. Mental health drugs continue to be prescribed at astounding rates and pain management clinics are turning into a hotbed for black market painkillers. When these drugs are prescribed to Medicaid patients, it is the American people who pay the price for over-prescription, abuse, and fraud.

After an extensive review of prescribing habits of the serial prescribers of pain and mental health drugs in your state, I have concerns about the oversight and enforcement of Medicaid abuse in your state. While I am sensitive to concerns about the potential for misinterpretation of the data you provided, the numbers themselves are quite shocking.

For example, the top prescriber of Seroquel wrote 1,398 prescriptions for the drug in 2009, more than double the second top prescriber on the list. This outlier is

consistent with all of the requested drugs—with the top prescribers writing double or triples the number of prescriptions as the other prescribers on the list.

It is my intention to ensure that each of the states is adequately monitoring, investigating, and stopping fraud and over-prescription of these types of drugs. Therefore, please provide answers to the following questions:

1. What action, if any, has your agency taken with respect to the prescribers identified to the Committee?
2. If there has been no action taken with respect to these prescribers, please explain why not.
3. Please identify which of the providers identified to the Committee remain eligible to bill the Medicaid Program.
4. Please provide the 2010 and 2011 numbers for the top prescribers of these same drugs.
5. Has each of these prescribers been cross-checked for complaints or misconduct with the state medical board or the National Practitioner Data Bank? If not, do you plan to do so?
6. Have any of the prescribers identified to this Committee been referred to your state medical board?
7. Is there any system set up in your state to identify and monitor excessive prescription writing? If not, why not?
8. Have you received any training or guidance from the Centers for Medicare and Medicaid Studies to help identify potential issues with prescription drugs?
9. Does your state maintain a database of all prescribed controlled-substances? If so, what entities have access to it?
10. Does your state have any point-of-sale restrictions related to maximum units, prior authorization, therapeutic duplication, or early refill? If not, why not?
11. Were any of these top ten prescribers identified in the federal-mandated Drug Utilization Review or CMS-base retrospective reviews?
12. Does your state have any programs in place to educate providers about the prescription of antipsychotics to children and adolescents?

Thank you in advance for your cooperation and attention in this matter. When responding to this letter, please number your answers in accordance with my questions. I would appreciate a response by February 13, 2012. If you have any questions, please do not hesitate to contact Erika Smith of my staff at (202) 224-5225.

Sincerely,

A handwritten signature in blue ink that reads "Chuck Grassley". The signature is written in a cursive, flowing style with a prominent "C" and "G".

Charles E. Grassley
Ranking Member
Committee on the Judiciary

February 27, 2012

VIA ELECTRONIC TRANSMISSION

Senator Charles E. Grassley
Ranking Member
Committee on the Judiciary

Dear Senator Grassley:

Thank you for the opportunity to respond to your follow-up questions related to the 2010 inquiry regarding several pain management and mental health drugs of concern. We appreciate the opportunity to detail the specific challenges that Kansas faces in managing these complicated medications and patients, as well as the actions Kansas has taken to provide oversight and intervention despite those challenges.

Our responses to your questions are as follows:

1-2. What action, if any, has your agency taken with respect to prescribers identified to the Committee? If there has been no action taken with respect to these prescribers, please explain why not.

Among those prescribers identified by Senator Grassley's 2010 request, no specific action was taken based solely on the results of this inquiry. However, as noted in our responses below, the State does have other methods for monitoring, oversight and intervention.

We will note that most of the medications that were part of the 2010 request are behavioral health drugs. K.S.A. 39-7, 121b explicitly prohibits restrictions on medications used to treat mental health conditions:

39-7,121b. Limitations on restrictions on medications used to treat mental illness; medications available without restrictions. No requirements for prior authorization or other restrictions on medications used to treat mental illnesses such as schizophrenia, depression or bipolar disorder may be imposed on medicaid recipients. Medications that will be available under the state medicaid plan without restriction for persons with mental illnesses shall include atypical antipsychotic medications, conventional antipsychotic medications and other medications used for the treatment of mental illnesses.

3. Please identify which of the prescribers identified to the Committee remain eligible to bill Medicaid.

Some prescribers are no longer eligible to bill Medicaid due to relocation or having declined to continue their participation in Kansas Medicaid. However, in Kansas, it should be noted that prescribers who are not Medicaid providers can write prescriptions for Medicaid beneficiaries.

A comprehensive list of those providers identified in 2010 who are still eligible to bill Medicaid is attached.

4. Please provide the 2010 and 2011 numbers for the top prescribers of these same drugs.

Three reports are attached that detail this information. They have been separated into reports based on our Fee-For-Service data, as well as the data of our two Managed Care Organizations.

5. Has each of these prescribers been cross-checked for complaints or misconduct with the state medical board or the National Practitioner Data Bank? If not, do you plan to do so?

Yes, the Surveillance Utilization Review (SURs) Unit at our fiscal agent tracks all negative action that is public record from oversight boards. If any clinician enrolled in our Medicaid program is cited as a recipient of negative action by an oversight board, this is reported to our state Medicaid agency. The National Practitioner Data Bank could be researched as a potential source for future provider review as well.

6. Have any of the prescribers identified to this Committee been referred to your state medical board?

SURs routinely refers physicians to the state medical board when there are concerns related to quality of care. Normally, they will first be referred to our Peer Education Resource Council (PERC) for internal review prior to being referred to Kansas' Board of Healing Arts. Six of the previously identified prescribers have been referred to our medical board since 2010.

7. Is there any system set up in your state to identify and monitor excessive prescription writing? If not, why not?

Kansas currently has a prescription monitoring program, K-TRACS, that covers controlled substances and a few drugs of concern (tramadol and fioricet products).

Specific to Medicaid, our SURs unit reviews utilization for Medicaid beneficiaries. When a beneficiary who appears to be misusing Medicaid resources is identified, coverage is limited to a specific physician and pharmacy through the use of a Lock-In program. Occasionally beneficiaries will also be locked-in to a specific hospital as well, to limit Emergency Room use. Additionally, Kansas performs threshold reviews wherein a utilization review is performed for beneficiaries who are receiving 15 or more prescription medications in a given month. If providers of concern are identified as a part of either of these processes, they may be referred to our state medical board.

8. Have you received any training or guidance from the Centers for Medicare and Medicaid Studies to help identify potential issues with prescription drugs?

Our state did not receive any specific training or guidance from CMS on these topics prior to your initial inquiry in 2010. However, both members of our pharmacy program staff at Kansas Medicaid have attended training at the Medicaid Integrity Institute. This federal program provides information on how to better identify and manage potential sources of Medicaid fraud. Kansas Medicaid received a guidance letter from CMS regarding the prescription of psychotropic drugs to foster children in November 2011, several months after your initial inquiry.

9. Does your state maintain a database of all prescribed controlled substances? If so, what entities have access to it?

As previously mentioned, Kansas' K-TRACS program monitors controlled substances. All providers and pharmacists have access to the database, as do law enforcement and the state Medicaid agency. This database is currently used to complement information in our own database for the purposes of our SURs unit's activities.

10. Does your state have any point-of-sale restrictions related to maximum units, prior authorization, therapeutic duplication, or early refill? If not, why not?

For our Short-Acting Oxycodone prescriptions, refill-too-soon policies with an 80% threshold are in place, as are quantity limits based on tablet counts that are specific to drug strength. We also have a policy currently in development that will limit cumulative use of short-acting opioids (including Oxycodone, Hydrocodone, Codeine, etc.) to 200 mg of morphine equivalents per day. This will limit a beneficiaries' ability to use various opioid products in conjunction with each other to bypass current quantity limits.

Our Long-Acting Oxycodone prescriptions are limited by both daily and monthly quantity limits. Limits of 3 tablets per day and 186 tablets of any strength per month apply to these scripts. Neither limitation can be overridden at the point of sale in a pharmacy. For those patients who do need higher quantities, a prior authorization is available wherein their prescribers can justify the therapeutic need for higher quantities of Oxycodone.

As previously noted, for the mental health medications discussed (Abilify, Geodon, Seroquel, Zyprexa, Risperdal, Xanax), we are limited by state statute prohibiting restrictions on medications used to treat behavioral health indications.

11. Were any of these top ten prescribers identified in the federal-mandated Drug Utilization Review or CMS-based retrospective reviews?

Many of the previously-identified prescribers received a number of letters via our Retro Drug Utilization Review Process. In Kansas, because we are limited by statute from placing restrictions on medications used for mental health indications, the RetroDUR process is one means we have to educate prescribers. A chart is attached that lists the number of letters a prescriber received from June of 2009 to December of 2011 for those prescribers that received at least one letter. In that time period, topics that were highlighted that pertain to the medications included in this inquiry include: Narcotic Usage, Atypical Antipsychotic Duplication, Increased Risk of Serotonin Syndrome, Psychotropics in Kids, History of Drug Abuse, Appropriate Narcotic Utilization, and Adverse Cardiometabolic Effects of Antipsychotic Agents. Those prescribers who receive the most RetroDUR letters are also targeted for Academic Detailing visits.

12. Does your state have any programs in place to educate providers about the prescription of antipsychotics to children and adolescents?

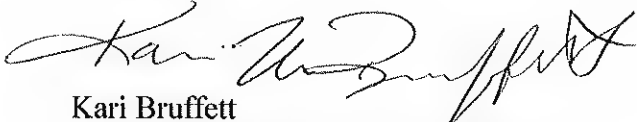

At this time, we use our Retro DUR program to educate providers on these topics. Mental health medications are a frequently chosen intervention topic. In our state fiscal year 2011, Psychotropics in Kids was a reviewed topic. Providers received communications on this topic in June of 2011, and information regarding provider response will be presented at our next DUR meeting in April 2012.

Senator Grassley

Page 4

Please contact us with any questions or comments that you may have regarding the information that we have provided. Thank you again for the opportunity to collaborate on these complex issues.

Sincerely,

A handwritten signature in black ink, appearing to read "Kari Bruffett", with a stylized flourish at the end.

Kari Bruffett

Director, Division of Health Care Finance

- Xanax.

I thank you in advance for your cooperation and request that you provide the requested documents and written responses by no later than May 5, 2010. In your reply, please format information into a chart like the examples provided below. All formal correspondence should be sent electronically in PDF format to Brian_Downey@finance-rep.senate.gov or via facsimile to (202) 228-2131. Of course should you wish to discuss this matter further, please do not hesitate to contact Christopher Armstrong of my Committee staff at (202) 224-4515.

Sincerely,

Charles E. Grassley
Ranking Member

*Coordinating health & health care
for a thriving Kansas*

May 5, 2010

The Honorable Charles E. Grassley
135 Hart Senate Office Building
Washington D.C., 20510-1501

This is in response to your request of April 21, 2010 asking the Kansas Medicaid program to list the top ten Medicaid prescribers of specified drugs for the years 2008 and 2009. Kansas provides pharmacy benefits to Medicaid beneficiaries through contracts with two Managed Care Organizations and our fee for service program. The accompanying charts portray for those three service delivery entities the top ten prescribers by prescription volume for each specified medication. If you have additional questions do not hesitate to contact me.

Sincerely,

Barbara E Langner, PhD
Medicaid Director

Rm. 900-N, Landon Building, 900 SW Jackson Street, Topeka, KS 66612-1220
